- b. Projects in Planning It is desirable that the columns entitled Location and Project and Remerks be completed for projects in the planning (pre-authorization) stage. It would be most helpful to have the CMM included in the Remerks column. It is considered that planning entries such as those made in the report attached to the reference are adequate.
- c Quarterly Summary Sheet It is intended that your submission of the Quarterly Summary Sheet referred to in \$10.000 \$1477\$ be discontinued. The Quarterly Summary Sheet will be continued at Readquarters, but it is considered that subject report will provide sufficient information to allow accurate compilation by Headquarters personnel.
